Brasília, Brazil

Last updated: January, 2026

Professional Summary

Forensic Economist, PhD candidate in Economics at the University of Brasília (UnB), with a Master's degree from the Federal University of Pernambuco (UFPE), with experience in technical projects, applied economic analysis, and regional development. I currently work as an Academic Advisor in the MBA program at USP/ESALQ and as a Specialized Technical Assistant at the Procuradoria-Geral da Fazenda Nacional (PGFN), with previous experience in public institutions and academic projects focused on regional economics, labor economics, environmental economics, and sustainable development. I have experience in data analysis, preparation of economic diagnostics, and development of studies with emphasis on territorial inequalities. Skills include programming (Stata, R, and Excel), econometrics, and public policy evaluation. My research interests include Regional and Urban Economics, Economic Demography, Labor Economics and Migration, and Environmental and Ecological Economics.
